

## NEW PROMOTIONAL MATERIAL!

Depuis Since the beginning of June 2009, Le Groupe Gilbert has come up with a new branding. Informative flyers and advertising kits will demonstrate Groupe Gilbert colors and show a cohesive layout. These promotional tools will offer better visibility for Le Groupe Gilbert and will be more appealing for customers.

Before we elaborate further on this subject, we must not forget to mention Robert Gagnon's outstanding work. He led this project through each and every step of the process. Many arduous months were necessary, combined with the joint collaboration of executive representatives and our publisher, to come up with this result.

The management also wants to thank every person who contributed to the design of the material, produced imagery, wrote texts or provided advices and opinions during proofreading.

Below, you will find Le Groupe Gilbert's new combined advertising kit.
